Oh well, I'll beat them the next time I see them.
That's why He will surely come—
People are repeating the same mistakes again.
Again and again, no matter how many years pass—
French Juno: Tartaros is growing-

Instead, I've been properly remembering the old days.
Good Morning Carmine
Recently I've stopped dreaming as much—
About the day I ran away from the facility with that man.

The day I was born—
And
what trigge-red it—
The time I have until the day I encou-nter that girl with a "flat face" is—
One more year
The vision I was shown by "Laplace" about the girl who was the same as me—

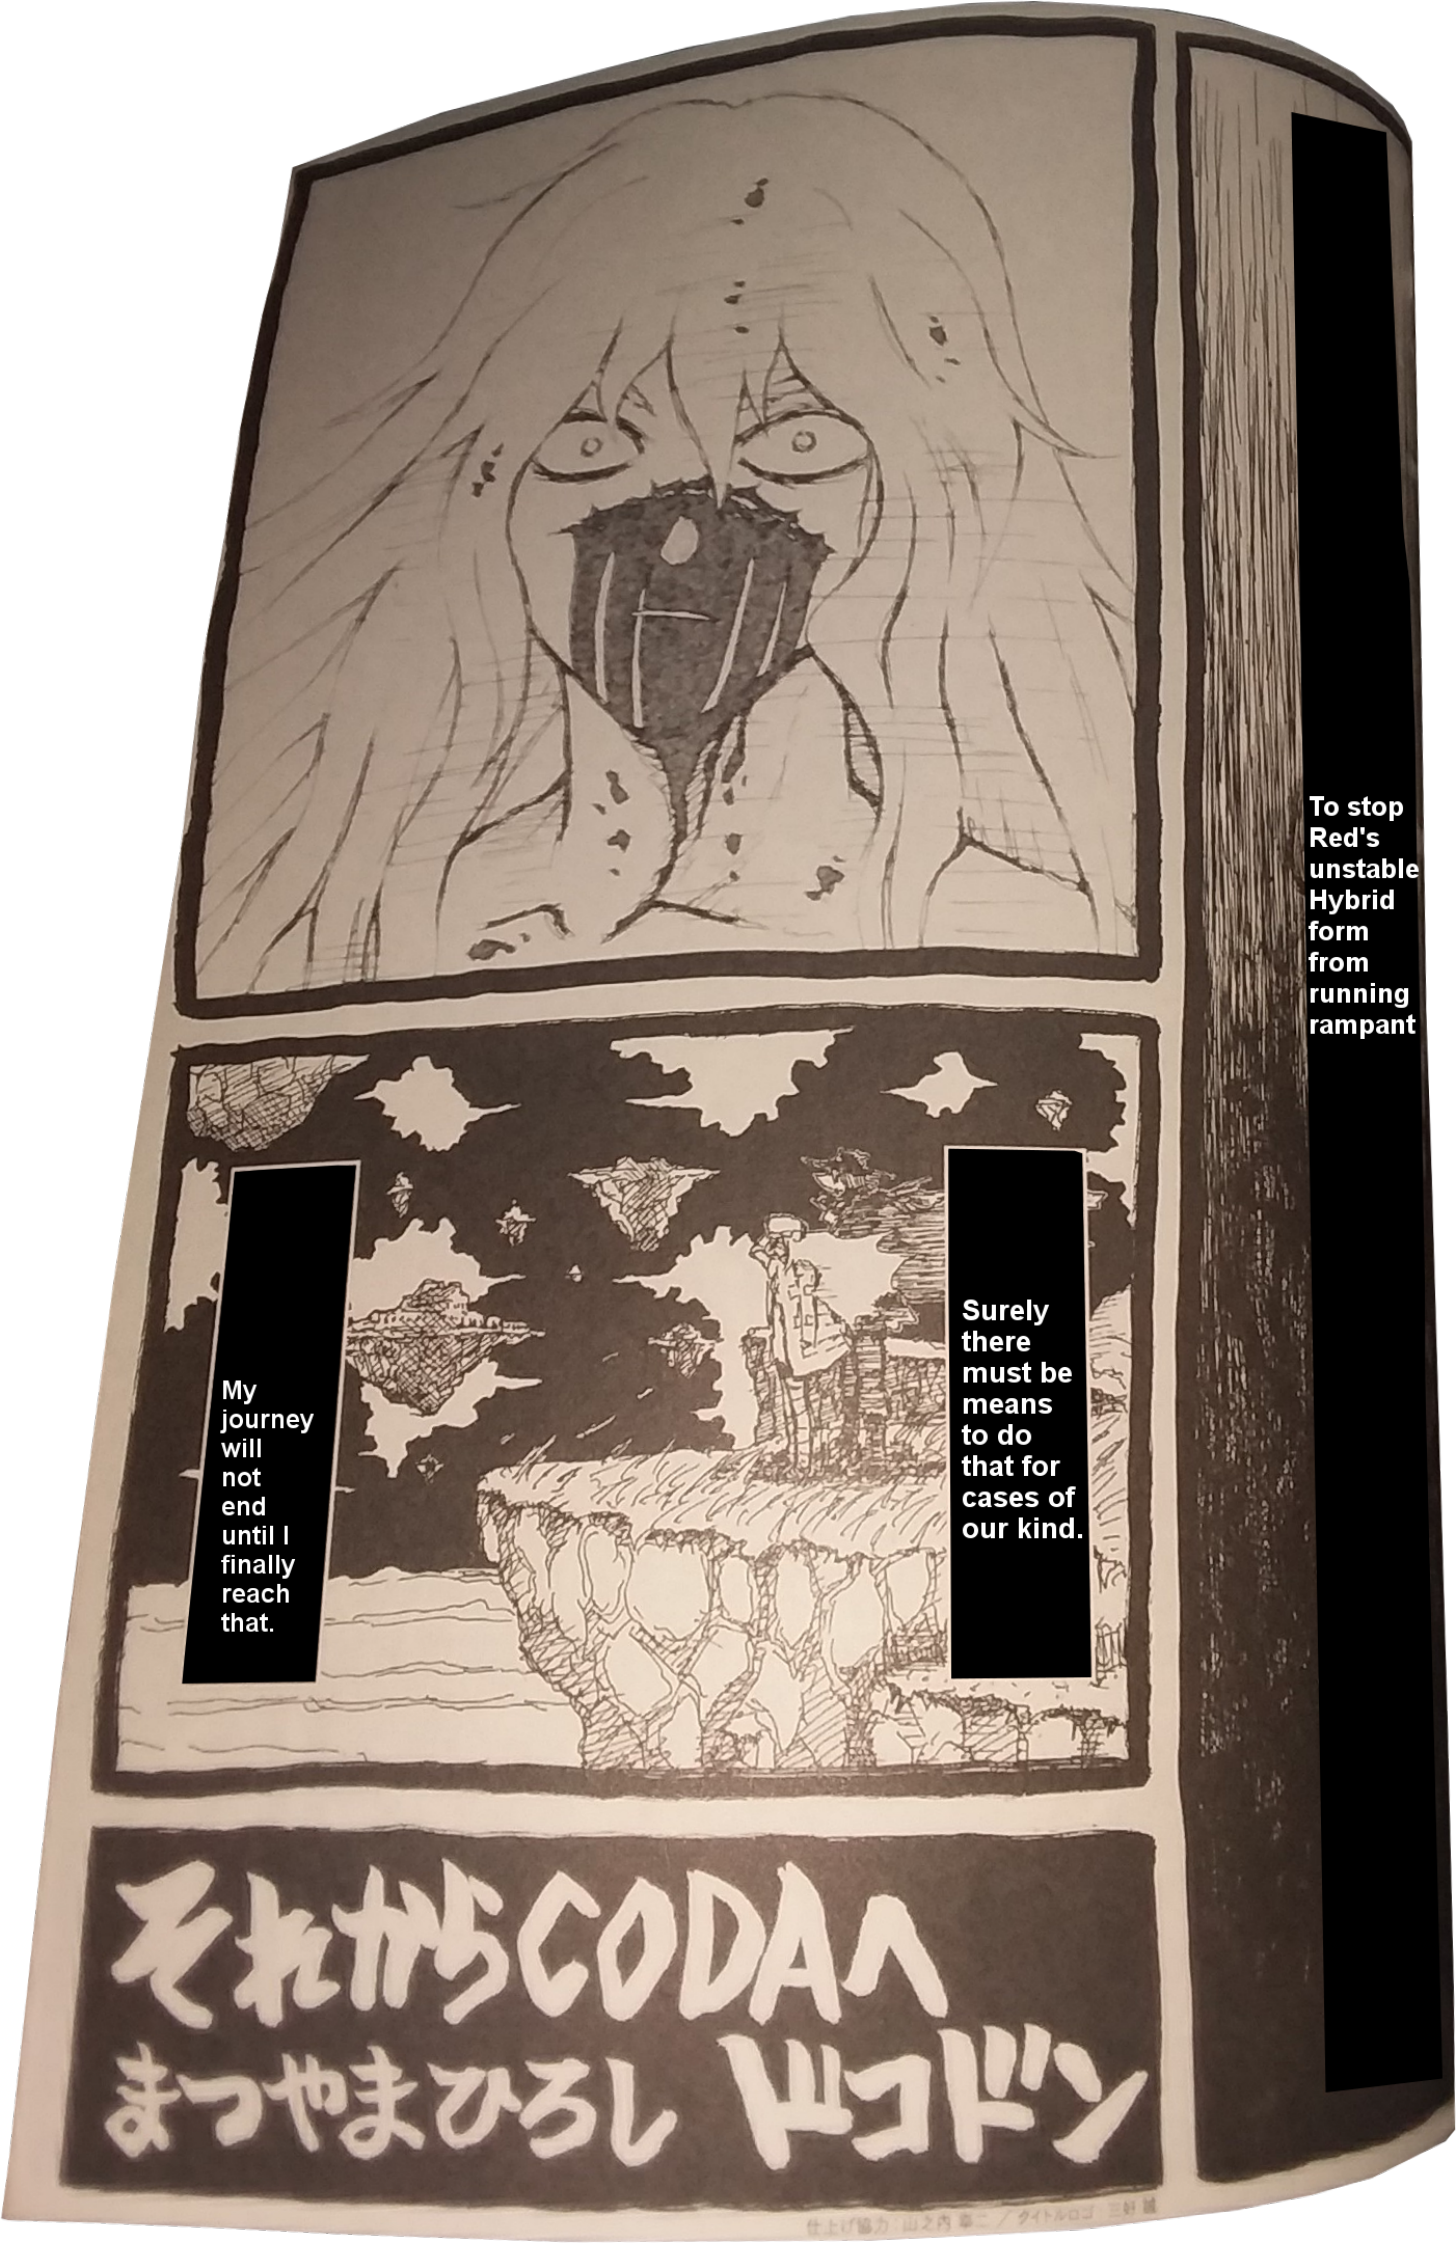
Carmine and I have been traveling the world—
It's been 2 years since we've left Red—
Purpose of Journey?
旅の目的は？
we left the Shepherd Reapublic for Abyssina
It's already been 1 year since
my only purpose —
I have not discussed with Carmine about



To stop Red's unstable Hybrid form from running rampant
Surely there must be means to do that for cases of our kind.
My journey will not end until I finally reach that.

Wake up,

Still, the night is not over
400 million people die
1.4 billion welcoming mornings
2.4 billion people cry out
6.4 billion pouring nights
